- Set date and time for next meeting

**If you know of someone who would be helpful to have on the task force and that would commit to being active with us, please invite them and see if you can get them onboard and at the June 21 meeting.**

In this regard, I would like to welcome Angela Hirsch, the Community Services Director for the Central Missouri Community Action Agency.

Question – would people like to have light refreshments at the meetings? I am thinking about iced tea or water, veggies/cheese/bread/crackers and dip, and/or something sweet for those that eat sweets? Let me know and I will take care of this if the members are in favor of it and think it would somehow add to the meeting. If this is not of interest just say so.

Note – I moved the meeting time up a half an hour, as I think the agenda might warrant a little extra time. We can adjust it down for future meetings if need be.

I look forward to chairing the task force in the next year, and with the aid of the amazing, wit, analysis, compassion, and action of each of you I am hopeful that we can revive the task force, and earn a place in the arena of effective advocates for economic justice
